ABOUT ME

I'm currently pursuing a BCA degree and have a passion for creativity. I enjoy blending technology with innovation to create meaningful projects. With a keen interest in web development, data analysis, and automating tasks, I strive to constantly learn and apply new skills in creative ways.

PROJECTS

Excel Sales Intelligence:

- Developed a dynamic dashboard using Power Query to visualize annual sales trends, inventory, turnover, and performance metrics.
- Created interactive charts and KPI indicators for real-time insights, aiding strategic decision-making.

Python Task Automator :

- Built a suite of scripts designed for automating repetitive data entry, file management, and data cleansing tasks using Pandas.
- Enhanced productivity by reducing manual effort through efficient and error-free automation.

Modern Portfolio UI :

- Developed a responsive glassmorphic portfolio website using modern CSS Grid, Flexbox, and fluid typography.
- Designed for a seamless user experience, showcasing creative projects with a sleek, contemporary design.

SQL Database Manager :

- Created and managed an SQL database to efficiently store, organize, and retrieve client information.
- Developed complex SQL queries for reporting and analytics, ensuring data integrity and optimizing database performance.
